

WarrenBoats Announcement

We are delighted that we have now begun the restoration of The Bottom Store, our strategically located former Wesleyan chapel on the Esplanade. This will support our heritage business in delivering even better boating services to the Seaview community.

The home of V A Warren & Son Limited since 1931

This project will enhance the streetscape, provide a new second floor and deliver improved storage and workshop facilities. Completion is due by mid summer 2022.

An extensive IT software upgrade also forms part of the project and is underway.

We would not have been able to undertake the project without grant funding provided by The European Agricultural Fund for Rural Development, to whom we are grateful.

Please bear with us this season as we get the building back into use; early instructions for maintenance work and mooring bookings will be greatly appreciated via our website www.warrenboats.co.uk

With all good wishes for a great season ahead.

Nicholas Rivlin & Nick Warren
